

**N00164-14-R-JT81 REQ 0001**  
**Determination that no subcontracting possibilities**  
**exist in accordance with FAR 19.705-2(c)**

As this is a negotiated acquisition and the dollar threshold exceeds \$700k, a small business subcontracting plan is required if subcontracting possibilities exist. For this procurement, the Contracting Officer has determined that no subcontracting possibilities exist. This requirement is for research and development (R&D) of an analytic tool to support open source intelligence (OSINT) requirements. All the Multiple Award Contract (MAC) holders maintain sufficient in-house capability to perform the work.

FAR 19.705-2(c) requires that if it is determined that there are no subcontracting possibilities, the determination must be approved at a level above the contracting officer and placed in the contract file. This signed document is the Government's determination that no subcontracting possibilities exist for this procurement.
